

MODERN
TRIALS

MODERN TRIALS®

Modern Trials is a healthcare technology company that democratizes access to advanced therapeutics to patients in need

Modern Trials pays Healthcare Organization Partners and enables better retention of high-value patients by providing access to advanced therapeutics through your organization

PROBLEM FOR HEALTHCARE ORGANIZATIONS

- ! Patients want **access to advanced treatment options** through clinical trials but healthcare organizations can only provide access to the trials they host
- ! Healthcare organizations lose **high-value patients** who turn to other academic medical centers for access to clinical trial opportunities
- ! Challenging to **recruit patients** for competitive clinical trial site contracts

- SOLUTION -

Modern Trials uses EHR-based prescreening to identify patients appropriate for particular clinical trials, and then brings relevant trial opportunities directly to those prequalified patients

PRIVACY & SECURITY

- ➔ Modern Trials **exceeds** all relevant privacy & security regulations, including HIPAA and HITECH
- ➔ Modern Trials is fully 21 CFR Part 11, GCP, FDA and HIPAA compliant

BENEFITS FOR HEALTHCARE ORGANIZATIONS

- ✓ **Revenue** generation with no overhead
- ✓ Retention of **high-value patients**
- ✓ Recognition of your organization as being on the **cutting edge** and able to provide access to **advanced therapeutics**
- ✓ User interface so you can use your EHR data to **prescreen patients** for your clinical trials and conduct **feasibility analysis** to enhance clinical trial site bids
- ✓ Ability to offer **additional treatment options** to patients in need
